

Deaf population is 1 percent of whole United States population. That is why deaf people is easily ingored. It is very important that you keep this kind of service available to us. Without inflexible of VRS service hours, we wind up suffer more. We as deaf people already suffer in many ways, especially in communication issues with hearing people. Please seek for more information on American Disability Act and its pontenial of discrmination against the nature of deaf people's needs. Thanks for your reconsideration and keep the service available in the United States because it is definteliy worth paying from the taxpayers and continue the right definition of what is really freedom (non discrmination environment) for deaf people.
